LETTER OF EXCELLENCE

Furtwangen, December 5th, 2008

We hereby confirm to Rayscience Optoelectronics Innovations, that their distribution and support work concerning our ECV Wafer Profiler CVP21 for the Solar Cell application field in China is outstanding. In this Solar Cell application field, Rayscience Optoelectronics Innovations supports the overwhelming majority of our customers in China.

We are very concerned that every customer is excited and completely satisfied with our ECV Wafer Profiler CVP21, and we are very thankful towards Rayscience Optoelectronics Innovations for their excellent support in this application field during the last 2 years since our first contacts in 2006.

Yours faithfully,

WEP
Dipl.-Phys. Thomas Wolff
